Certificate III in Beekeeping

AHC31818

Learn how to become a professional beekeeper

Help your employees embark on a journey into the world of beekeeping with our nationally recognised apiculture course. The Certificate III in Beekeeping is the first of its kind in Victoria, offering your team the unique opportunity to become skilled beekeepers and make a positive impact on the environment.

Melbourne Polytechnic's Certificate III in Beekeeping delivers crucial training to ensure the next generation of qualified professional beekeepers to grow and futureproof the Australian apiculture industry.

- Dr Ben McKee,
Chief Operating Officer
Hive + Wellness Australia

Receive practical education and training from experts:

- ▶ Establishment of beehives and apiaries
- ▶ Transportation of live bees
- ▶ Management of bees for honey production
- ▶ Provision of pollination services
- ▶ Biosecurity measures
- ▶ Regulatory requirements

We are pleased that Melbourne Polytechnic now has available a Certificate III in Beekeeping course for South-Eastern Australia. It was great to have contributed to the preparation and we highly recommend the course to the apiculture industry.

- John Van Weeghel
President
Victorian Apiarists' Association

Why the Melbourne Polytechnic Certificate III in Beekeeping?

- ▶ Highly qualified and specialised trainers
- ▶ Nationally recognised qualification
- ▶ Blended training model
- ▶ Mobile training unit for easy access to classes
- ▶ Partnership and collaboration with Victorian beekeepers
